## CHANGING UKRAINE SINCE 2006— THE LARGEST NATIONWIDE PRIVATE SCHOLARSHIP PROGRAM

There is no stronger driver of change than future generations empowered with knowledge and values. Therefore, to create the generation that will build a new Ukraine, the Foundation has invested in scholarships for the best Ukrainian students since 2006.

In more than a decade, over 2,500 students have received a stipend after having undergone a selection process that tests academic excellence and leadership potential. They make up the Zavtra.UA community (“zavtra” means “tomorrow” in Ukrainian).

The grantees receive a monthly stipend and also regularly attend lectures by world leaders in Kyiv, where they learn from global experience and receive inspiration for their own endeavors. Among others, Tony Blair, Bill Clinton, Shimon Peres, Condoleezza Rice and Jimmy Wales have spoken to the Zavtra.UA community. Selected alumni are also invited to the Young Leaders Section at the Yalta European Strategy (YES) Annual Meetings, where they meet with global thinkers and political leaders to discuss challenges facing Ukraine and the world.

In addition, the Foundation encourages and supports stipend recipients who implement projects for social change (thus far, 165 have been completed). It also organizes seminars to broaden students’ knowledge about global challenges. Since 2013, Zavtra.UA organized three “Climate Change Camps” in partnership with the Coca Cola Foundation.

## WORLDWIDESTUDIES: THE BEST INTERNATIONAL EDUCATION FOR UKRAINE'S FUTURE LEADERS

To create a new Ukraine, leaders must have an excellent education. They also need practical, first-hand knowledge of open, democratic societies governed by the rule of law. Since 2010, WorldWideStudies (WWS) has been giving Ukraine's best students and young professionals access to the world's best 200 universities, predominantly in the United States and Western Europe. In exchange, they commit to return to Ukraine and apply their newly acquired knowledge and skills in their country for at least five years.

Scholarships are awarded in fields crucial for the development of Ukraine: public administration, public law, ecology, agriculture, aerospace engineering, and alternative energy. Grants cover up to 60% of the total cost of completing a Master's program.

Since 2010, program alumni have built a community and are involved in reforming Ukraine. Three WWS grantees are current members of the Ukrainian parliament, more than 30 grantees implement new standards in business in top management positions, 15 alumni work in government institutions and international organizations, and others lead their own companies and NGOs or are continuing their studies. The community of WWS scholarship holders is a driver of change and is getting stronger every year. In 2016, WWS alumni launched an alumni grant to help one prominent student from the selection to fulfill his or her dream of getting a Masters Degree in one of the best universities in the world.

# WORLDWIDESTUDIES NOMINEES:

A WWS scholarship will open a door to one of the best years in your life. I had one life-changing year at Cambridge. Without it I wouldn't imagine creating and joining great teams of experts in Ukraine at the Professional Government Association and Cambridge Society of Ukraine. It's great to explore your limits (or actually limitlessness) with foreign education. Go for it!

## PUBLIC LECTURES: GLOBAL LEADERS INSPIRING UKRAINIAN YOUTH

For more than 11 years, the Victor Pinchuk Foundation has invited leading international thinkers and policymakers to bring global ideas to Ukrainian students. By giving talented youth a chance to communicate with global leaders and hear their views on the challenges facing Ukraine and the world, we encourage students to question their thinking and widen their worldview.

Public are attended by hundreds of students from more than 50 Ukrainian universities, among them many scholarship-holders of the foundation's Zavtra.UA and WorldWideStudies programs.

In 2016, Dr. Condoleezza Rice, the 66th United States Secretary of State, spoke about building democracy, Ukraine's current challenges, and the responsibility of young educated people to bring change to their countries.

Previous speakers have included Tony Blair, Bill Clinton, Joschka Fischer, Thomas Friedman, Michio Kaku, Shimon Peres, Colin Powell, Javier Solana, Strobe Talbott, Jimmy Wales, James Wolfensohn, and Muhammad Yunus.

Throughout 2016, the PinchukArtCentre continued, intensified and deepened its social investment in Ukraine. Our aim is to contribute with our exhibition program to urgent discussions in society and to help sustain a critical attitude to Ukrainian history in order to better understand its future.

We continued the series of politically and socially relevant exhibitions started in 2014 with **Loss, In memory of Babi Yar** which opened in May 2016. This exhibition coincided with the official commemoration of Babi Yar. It considered the tragedy through a new monumental works by Christian Boltanski and Berlinde De Bruyckere, alongside the work of Jenny Holzer that silently built a bridge between Babi Yar and tragic events around the world and throughout history. During the exhibition a number of educational events, talks, screenings and discussions engaged broad audiences on Babi Yar and its significance.

Alongside the exhibition **Loss**, the PinchukArtCentre presented **Guilt**. This exhibition drew a relation between the politically uncertainty of the early 1990s in Ukraine and the risks amid the current military conflict in its east, examining the issue of historical and individual guilt and responsibility.

Guilt drew from work done by the PinchukArtCentre's **Research Platform** on Ukrainian art. We established this platform in February 2016 as an open platform for thinking, research and discourse. It aims to generate a living archive of Ukrainian art from the early 80s to the present and stands at the core of our investment in Ukrainian art and identity-building. It consists of a full-time group of researchers, a library on the 4th floor of the PinchukArt-Centre and a growing digital archive. Its mission is to preserve, catalogue and reconsider historical information necessary for critical reflection on Ukrainian identity today and tomorrow.

The results are consistently shared with the broad public through systematic publications, discussions and exhibitions that draw from the work of the Platform. In 2016, we digitized over 6400 archival materials, made about 40 interviews, 33 profile articles and published 12 contextual articles in partner publications.

Using the extended work of the Research Platform, we presented a final exhibition in 2016 named: **Parcommune, Place. Community. Phenomenon.** This project explored the practice of artists, who were related to the squat “Parcommune” – a few buildings in the area of former Paris Commune Street, Kiev (today – Mikhailovskaya Str.), where squats and artistic studios were situated between 1989 and 1994. The exhibition resulted in the first online publication of the Research Platform and the first critical analysis of the nucleus of the Kyiv contemporary art scene.

Our direct and deepened focus on Ukraine was reflected in a dynamic public program that connected to all exhibitions. We reached both professional audiences, engaging them in the Research Platform, and a broad audience, who was for the first time introduced to forgotten or lost parts of Ukrainian (art-) history.

In 2016, we also successfully launched the 4th edition of the Future Generation Art Prize 2017 reaching over 4500 artists from 134 different countries around the globe. The exhibition and awards took place in 2017.

# CRADLES OF HOPE

In order to reduce infant mortality in Ukraine, the Victor Pinchuk Foundation has implemented its “Cradles of Hope” program since 2006, building a network of technologically advanced neonatal centers based in existing state hospitals throughout Ukraine. The Foundation provides for state-of-the-art medical equipment, training for doctors and nurses, IT networks and technical support.

In 2016, the Foundation concentrated its efforts on training neonatal centers’ medical staff. Some of the leading international specialists in neonatology from Austria, Great Britain, the Netherlands, Germany, the USA, France and Switzerland were among the invited speakers at the Annual Neonatal Conference, which the Foundation organized and in which 130 neonatologists from all over Ukraine participated.

Since the program’s launch in 2006, 32 neonatal centers have been equipped and 1163 healthcare professionals from every region of Ukraine have taken part in the training events hosted by the Foundation.

According to our partner hospitals’ data, 38 298 babies were saved since 2006 thanks to the program.

# UKRAINIAN PHILANTHROPIC MARKETPLACE: CHANGING UKRAINE WITH ONE CLICK

Ukrainian Philanthropic Marketplace is a platform for online giving, made possible by a startup grant from the Victor Pinchuk Foundation. The web-based platform [ubb.org.ua](http://ubb.org.ua) links social projects with donors and business. Since 2012, it has pioneered quick, efficient, transparent and accountable giving in Ukraine. Hundreds of thousands of citizens have come together to achieve big results with small contributions.

In 2016, [ubb.org.ua](http://ubb.org.ua) raised over ten times more funds than the amount spent on its infrastructure. Raised funds were directed to more than 120 Ukrainian NGO's - saving thousands of lives, providing, among others, surgery and treatment to children with serious diseases, vacations for orphans, medical equipment and support for refugees from Eastern Ukraine, injured soldiers and destroyed cities.

Verification and transparency are an important feature. Only after thorough verification, Ukrainian NGOs can place their projects on [ubb.org.ua](http://ubb.org.ua). This is crucial in Ukraine where for many years there has been a fear of misappropriation of donations. Ensuring transparency and accountability, the platform allows citizens to feel confident that their donations will directly help those in need. Also, the Ukrainian Philanthropic Marketplace consults companies on how to build transparent and effective philanthropic projects as part of their corporate social responsibility strategies.

The Ukrainian Philanthropic Marketplace was honored as "Best Ukrainian/International Charity Fund" in 2013, 2014, 2015 and 2016, received the "Innovations in Charity Award" in 2014, and was named "Most effective and transparent Ukrainian charitable organization" in 2014. In 2016, the platform was also awarded the title "Most Effective and Helpful Philanthropic Project in Ukraine."

"UKRAINIAN PHILANTHROPIC MARKETPLACE IS BASED ON THE PRINCIPLES OF TRANSPARENCY AND ACCOUNTABILITY. THANKS TO UBB'S WORK, DONATIONS ARE SPENT ON THINGS OF VITAL IMPORTANCE THAT CAN CHANGE LIVES FOR THE BETTER. UKRAINIAN PHILANTHROPIC MARKETPLACE IS HOPE GIVEN BY PEOPLE WHO CARE!"

# BABI YAR HOLOCAUST MEMORIAL CENTER

The Victor Pinchuk Foundation supports the Babi Yar Holocaust Memorial Center (BYHMC), a nonprofit educational institution that documents and commemorates the Holocaust and in particular the Babi Yar mass shootings of September 1941. By following this educational mission based on a scholarly reckoning with the past, the Center engenders more resilient and democratic societies and fosters peaceful coexistence.

On September 29, 2016, on the 75th anniversary of one of the most notorious atrocities of the Second World War, the Initiative Group of the Babi Yar Holocaust Memorial Center signed a Declaration of Intent to create the Memorial Center. A ceremony at the Taras Shevchenko National Museum was attended by 200 guests included officials, historians, educators, museum professionals, leaders of civil society, and members of the Initiative Group.

The target date for the opening of the Memorial Center is planned for 2021 and will coincide with the 80th anniversary of the Babi Yar massacre.

BYHMC aims to better understand and define the task of this endeavor and concentrate its efforts in order to determine a correct purpose and approach that will be acceptable for all stakeholders.

## JEWISH COMMUNITIES: SUPPORTING JEWISH COMMUNITIES AND AWARENESS OF JEWISH HISTORY IN UKRAINE

The Victor Pinchuk Foundation has been a supporter of the Jewish community in Ukraine for more than a decade.

In 2016, the Foundation donated to Yad Vashem's International School for Holocaust Studies (ISHS), developing and implementing educational activities to promote an understanding of the Holocaust's dimensions, events and messages. The Foundation also gave a grant to the Jewish Confederation of Ukraine to organize events in honor of the 75th Commemorative Anniversary of the Babi Yar Tragedy. In addition, the Foundation continued to support the Joseph and Fanny Tsindlikht private pre-school in Dnipro.

For his contribution in bringing Jewish and non-Jewish Ukrainians closer together and his support for Jewish communities in Ukraine, Victor Pinchuk received the Metropolitan Andrey Sheptytsky Award in 2014. The Sheptytsky Award is conferred by the Jewish Confederation of Ukraine and the Ukrainian Jewish Encounter on an annual basis to an individual in Ukraine, Israel, or the diaspora who has made important contributions to Ukrainian-Jewish understanding and cooperation.

In 2006, a documentary about the Holocaust in Ukraine, "Spell Your Name", was co-produced by Steven Spielberg and Victor Pinchuk with the USC Shoah Foundation Institute. In 2011 and 2012, exhibitions "Shoah by Bullets: Mass Shootings of Jews in Ukraine 1941-1944" were opened in Kyiv, Kharkiv and Dnipro by the Victor Pinchuk Foundation in partnership with Memorial de la Shoah and Yahad-In Unum.

## TONY BLAIR FAITH FOUNDATION INITIATIVE: PROMOTING CO-EXISTENCE AND COUNTERING EXTREMIST IDEOLOGIES AND HATEFUL NARRATIVES

The Tony Blair Faith Foundation (TBFF) was an international partner of the Victor Pinchuk Foundation that fosters tolerance and religious and cultural understanding in Ukraine and worldwide. Through its innovative education program, Generation Global, TBFF provided practical support to Ukrainian teachers in over 100 schools, through training and resources, helping them to build a curriculum that gives their students the skills, knowledge and confidence to engage with, and live alongside, difference.

Ukrainian students continue to make hundreds of global connections through Generation Global's video conferencing and digital dialogue platforms. In 2016, 171 Ukrainian classes made global connections in live facilitated video conferences, and a further 31 classes connected with global peers for written dialogue on the Generation Global moderated online community. The topics for dialogue have been varied, including hate speech, the rights of girls and women, and identity. The regions which they have connected with have also been diverse, including classes from Asia, the Middle East, Africa, Europe and North America.

This past year has also seen some of our more experienced Ukrainian teachers lead teacher training on dialogue with the support of their regional methodologists, which has led to more Ukrainian schools joining the global program and more teachers making better use of the dialogical approach to teaching and learning. In addition, in January 2016 TBFF hosted Generation Global teacher training events for over 80 teachers in Lviv and Kiev.

The work previously delivered through the Tony Blair Faith Foundation is now delivered by the Tony Blair Institute.

"PARTICIPATION IN THE GENERATION GLOBAL VIDEO CONFERENCES ARE VERY USEFUL FOR ME. I CAN TALK WITH MY PEERS FROM DIFFERENT PARTS OF THE WORLD. IT IS SO AMAZING TO REALIZE HOW DIFFERENT WE ARE AND AT THE SAME TIME HOW SIMILAR WE ARE! I AM PROUD TO HAVE THE OPPORTUNITY TO TAKE PART IN THE DIALOGUES. IT HELPS ME TO BECOME MORE CONFIDENT IN LESSONS IN MY SCHOOL. I SOMETIMES TELL MY FRIENDS WHO GO TO OTHER SCHOOLS ABOUT VIDEOCONFERENCES AND THEY ARE SO JEALOUS OF ME!"

# DAVOS UKRAINIAN BREAKFAST

## CONNECTING UKRAINIAN AND INTERNATIONAL DECISION – MAKERS SINCE 2005

Connecting Ukraine and the world is a crucial part of the Foundation’s approach to foster transformation. One instrument for putting Ukraine on the international agenda and bringing together Ukrainian and international leaders is the Davos Ukrainian Breakfast. The Victor Pinchuk Foundation has hosted the event each year on the occasion of the Annual Meeting of the World Economic Forum since 2005. It has evolved into a leading annual gathering to discuss Ukraine’s future with world leaders.

In 2016, during the event entitled “Changing World. Changed Ukraine?”, the speakers discussed the ways to secure Ukraine’s reforms and keep attention on the country in a world dominated by multiple crises.

The panel, moderated by Niall Ferguson the Laurence A. Tisch Professor of History at Harvard University, brought together Aivaras Abromavičius, Minister of Economic Development and Trade of Ukraine; José Manuel Barroso, President of the European Commission (2004-2014); Sir Richard Branson, Founder of the Virgin Group; Chrystia Freeland, Minister of International Trade of Canada; George Soros, Founder and Chairman of Soros Fund Management; and Natalie Jaresko, Minister of Finance of Ukraine.

Around 300 leaders from business, politics, the NGO sector and the media attend the event.

IF UKRAINE WILL NOT  
RECOGNIZE THE PROBLEM  
OF CORRUPTION,  
THE INTERNATIONAL  
COMMUNITY WILL IGNORE  
UKRAINE’S SUCCESSES.

CORRUPTION CAN  
NEVER BE ELIMINATED  
FULLY, BUT INDEPENDENT  
COURTS AND LAW  
ENFORCEMENT WILL  
SHRINK THE SPACE  
FOR LARGE-SCALE  
CORRUPTION.

Sir Richard Branson, Victor Pinchuk, José Manuel Barroso, Chrystia Freeland, Carl Bildt, Aleksander Kwasniewski, Vitali Klitschko, Dmytro Shymkiv, Niall Ferguson, Natalie Jaresko, Serhiy Leshchenko, Aivaras Abromavičius

UKRAINE IS ONE OF THE  
MOST VALUABLE ASSETS  
FOR THE EU, ESPECIALLY  
IN PROVIDING DEFENCE  
AND KEEPING EUROPEAN  
VALUES ALIVE.

THE MAIN OBSTACLE  
TO DEVELOPMENT IN  
UKRAINE IS THE LACK  
OF RULE OF LAW.

George Soros, Chairman of Soros Fund Management

## ATLANTIC COUNCIL: WORKING TOGETHER TO SUPPORT AN INDEPENDENT UKRAINE IN EUROPE

The Atlantic Council promotes constructive leadership and engagement in international affairs based on the Atlantic Community's central role in meeting global challenges. The Council provides an essential forum for navigating the dramatic economic and political changes defining the twenty-first century by informing and galvanizing its uniquely influential network of global leaders. Through the papers we write, the ideas we generate, and the communities we build, the Council shapes policy choices and strategies to create a more secure and prosperous world.

The Victor Pinchuk Foundation supports the Atlantic Council's Ukraine in Europe Initiative, which is designed to galvanize international support for an independent Ukraine within secure borders whose people will determine their own future. To advance this, the Dinu Patriciu Eurasia Center (DPEC) convenes top transatlantic stakeholders in public and private fora and publishes original articles, issue briefs, and policy-focused reports that aim to strengthen Ukraine's security, preserve its territorial integrity, and advance transformational democratic, economic, and governance reforms. From the flagship publication UkraineAlert to timely discussions with American, European, and Ukrainian leadership, the Initiative generates intense public policy and media attention to Ukraine's ongoing reform efforts and the security threats posed by a revisionist Russia in Europe's East.

Dr. Agnia Grigas speaks at the event launching her book, *Beyond Crimea: The New Russian Empire*, on March 9, 2016

"THANKS TO THE SUPPORT OF GENEROUS FUNDERS LIKE THE VICTOR PINCHUK FOUNDATION, THE ATLANTIC COUNCIL IS ABLE TO RUN A CUTTING EDGE PROGRAM ADVANCING UKRAINE'S SOVEREIGNTY, TERRITORIAL INTEGRITY, REFORM AND PROSPERITY."

# ORGANIZATIONAL AND FINANCIAL HIGHLIGHTS

The Victor Pinchuk Foundation was established in 2006, bringing together the various lines of philanthropic activities that Victor Pinchuk had been developing over the previous 10 years. The Victor Pinchuk Foundation combines two legal entities: one not-for-profit UK entity, “The UK Office of the Victor Pinchuk Foundation,” which serves as the international representative office and facilitates the Foundation’s international activities, and one charitable not-for-profit organization registered under Ukrainian law (the Charitable Organization “Foundation of Victor Pinchuk – Social Initiative”), which covers various activities in Ukraine.

All the activities of the above foundations, herein collectively referred to as “The Victor Pinchuk Foundation,” are governed by one management team. Reporting to the founder on an annual basis, the management prepares a combined statement of cash receipts and disbursements, which presents the cash receipts and disbursements of these two foundations, together with a summary of significant accounting policies and other explanatory information (“the Combined Statement”). The Combined Statements for 2015 and 2016, audited by Ernst & Young Audit Services LLC, were issued on 27 April 2016 and 28 April 2017 respectively. A full set of the Combined Statements together with Independent Auditors’ Reports can be obtained by request from the Victor Pinchuk Foundation.

The Foundations receive donations primarily from legal entities for the purpose of funding various charitable and social projects and making charitable donations.
